

HAWORTH

Resonate

Lounge Seating

Today's workforce is drawn to contemporary environments with comfortable furnishings that support the ways they want to work and interact. Giving people inviting, well-appointed spaces that support human connection helps to keep them engaged, while versatile, adaptable elements maximize your investment.

Resonate™ is a collection of modular lounge furnishings and chairs that support people during those in-between times when ideas form. The warm, light-scale aesthetic harmoniously relates to today's interior landscape—and workforce. A uniform structure means modular pieces are easily configured to create lounge spaces near the work area.

Inviting, Contemporary Design

The workplace environment has shifted with employee expectations to include a variety of work areas that accommodate diverse needs—in function and materiality. Resonate has an elegant, airy aesthetic that helps you create inspiring, casual spaces that draw people in and bring workspaces to life.

Redefining Structure for Optimal Comfort and Choice

Offering choice in destinations for work, collaboration, and social connection, Resonate supports employee well-being and optimal performance. Lounge seating with structural lofted back cushions offers comfort for a wide range of people, and modularity creates “neighborhoods” that can be defined and adapted through the easy, lightweight maneuverability of each freestanding piece.

Haworth + Gensler

Resonate was created through a Haworth collaboration with integrated architecture, design, planning, and consulting firm Gensler, serving as product design consultant. Haworth's international team of designers collaborates with research and development partners to create multi-generational products and global platforms—with regional needs and preferences in mind.

Flexibility for Change

Resonate's five modular lounge pieces use a "perfect square" platform foundation with the same dimensions, making it simple to create variety of scale and application. Add, relocate, or move pieces together or apart within a space to accommodate changing needs. The minimalistic, yet durable wire base design lets you easily configure and reconfigure spaces for years to come. Lounge and side chairs, designed for easy movement, offer variety in seating for meeting settings and waiting areas.

Design Choices

Variety of scale, materiality, and color enable unique combinations using Resonate's light-scale elements and a curated palette of finishes. Create inviting, comfortable spaces with the modular lounge seating, lounge and side chairs, ottoman, and table pieces. Choose from a wide range of upholstery options, laminates (solids and woodgrains), and frame paint colors.

Aligning People and Space for Optimal Performance

Your people, organization, and facilities are at the center of everything we do. We help create spaces that solve for your business needs—resulting in effective people and efficient use of real estate.
